

About GSI

Gemological Science International (GSI) is an independent gemological organization committed to bringing state-of-the-art technology with proven expertise and ethical integrity.

As a major gemological enterprise established in the 21st century, GSI has grown to become one of the leading gemological entities in the world, with offices spanning four continents.

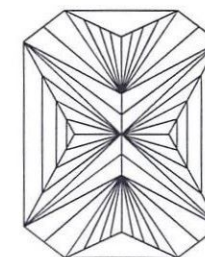

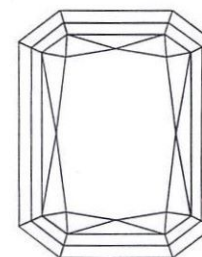

As a global leader, GSI works in close proximity with its clients to assure that its gemological services are consistently reliable, efficient and available.

Since its founding in New York City in 2005, GSI has been able to provide trusted gemstone identification and grading services as well as gemological research, a variety of educational programs designed to educate the next generation of professionals.

From the mine to the showcase, GSI works with leading jewelry companies across the globe to stay one step ahead of an ever more rapidly evolving industry.
